Objective

Aspiring full-stack developer and creative frontend web developer with proficiency in querying SQL and writing JavaScript. Seeking a position that leverages my skills and abilities in the IT industry, offering professional growth and opportunities to be resourceful, innovative, and flexible.

Work Experience

National Institute of Information Technology

Position: Trainee Web Developer

- Worked on web application development using PHP on Apache framework.

- Contributed to the development of a Railway Reservation System using Visual Basic on .NET technology.

Training & Certifications

- **C,C++**

- **SQL/ORACLE – [Institute Name], [Date/Duration]**

- **The Complete JavaScript – Udemy, Nov 2023 – Dec 2023**

Projects

Interactive To-Do List Web Application – Live link

Developed an interactive To-Do List web application using HTML, CSS (TailwindCSS), and JavaScript. Users can add, edit, and delete tasks dynamically. The application provides real-time interactivity, allowing users to manage tasks efficiently. It includes validation to ensure tasks are not left blank and supports both task modification and removal

Whack-a-Mole Game – Live link

Developed a fun and interactive Whack-a-Mole game using HTML, CSS, and JavaScript. The game features dynamic mole appearance, real-time score tracking, and a timer countdown. Users can start, play, and end the game, with the ability to reset the score and timer after each round. Event listeners detect mole clicks and update the score, providing a responsive and engaging gaming experience.

Nice at Noon Boutique - GSAP Animation Project – Live link

Developed a visually engaging and interactive website for *Nice at Noon Boutique* using GSAP . The project focused on high-performance animations to enhance user experience, smooth transitions, and interactive hover animations for products.

Lorem-Picsum-Image-Gallery – [Live link](#)

The Picsum Image Gallery is a simple, visually engaging project that dynamically displays a collection of high-quality images. The gallery fetches random images from the Picsum API, providing users with an enjoyable experience as they explore a variety of images. Designed with user-friendly functionality, it allows for easy navigation and interaction, perfect for showcasing a modern, minimalist approach to web design.

Technical Expertise

- **Operating Systems**: Windows XP/7/8/10/11,

- **Frontend**: HTML5, CSS3, JavaScript, jQuery, React, Animation (GSAP, Scroll Trigger)

- **Backend**: PHP, .NET Framework, Apache

- **Databases**: SQL Server, MS Access

Strengths & Skills

- Confident, determined, and hardworking

- Self-motivated with the ability to function both independently and within a team

- Fast learner, always keeping up with the latest technologies

---
